Answer Sheet

Remember, (M) is written next to those questions you should have tried to solve mentally first. (W) means a written method is usually more efficient for this question.

1. $7 \times \mathbf{6} = 42$ (M)

2. $70 - 29 = \mathbf{41}$ (M)

3. $37 \times 37 = \mathbf{1,369}$ (W)

4. $8 + 3 + 8 = \mathbf{19}$ (M)

5. $32,764 - 21,863 = \mathbf{10,901}$ (W)
