# Predict

Here is the ending of Chapter 9 **May Day**. There is only one Chapter remaining.

*I don't remember my dreams that night. Perhaps I didn't have time to have any. A few hours later, before it was light, Widow Primmer shoved me so hard I almost fell out of bed.*

Use these boxes to predict what is going to happen next. How do you think the book is going to end? Can you predict what will happen to the main characters?
