

Summer 1-Can you survive in the woods?

Write a fact file on rivers, mountains, lakes, forests, beaches and valleys.	Write a summary of your favourite story explaining the plot and why you like it so much.	Can you cut up food into halves, quarters and thirds and show me your fractions?	Build a shelter in your garden and go on a nature walk. What geographical features can you see?
Show me what you have remembered in maths so far, can you show me some addition, subtraction, multiplication and division.	Show me all the punctuation you can use in your writing.	Read some non-fictions texts about features of a landscape.	Create a structure showing the physical features of a landscape e.g a beach sculpture or a river with flowing water.
Can you get active, show me all the ways you are staying fit and healthy.	Explain how you care for others and why it matters and how it helps the world. You could do this as a poster, presentation or leaflet.	Can you play Tennis and explain the skills you need to do it? Create a poster to explain what you need to do.	Write your own version of your favourite fairy-tale. Can you mix up the characters and make it funny?
Over this half term these are activities that you can complete if you are self-isolating, home learning or just want to do something extra. Please send in photographs of what you get up to on Seesaw.	Create a song to help you with your 2, 5, 10 and 3 times tables.	Learn a song about friendship and tell me why you like it and how it makes you feel.	Write instructions on how to clean your teeth.

Complete 8: Gold Award, 6: Silver Award, 4: Bronze Award
