Weigh the items and see if your estimations were correct.. Which was the heaviest? What's the difference between the heaviest and the lightest object? Were any objects a surprise?</p>	<p>Use your new found weighing skills to bake some buns. Decorate them and enjoy sharing them with your family.</p>
Science and the outside environment	<p>At school we have completed an invertebrate investigation- searching the school grounds for insects. Do the same in your own garden. Can you find the following insects: beetle, centipede, millipede, ladybird, worm, slug, snail, caterpillar, and many more.</p>	<p>Create a poster showing all the invertebrates that you found in your garden. Decorate and label it. Research on the internet about invertebrates and what they are. Be able to explain the differences between invertebrates and vertebrates and name animals in those groups.</p>
