Year 4 Maths Revision

Task: Use addition, subtraction and division to solve word problems.

1. Charley and Harriet had 146 felt tip pens between them. Charley had 26 more than Harriet. How many did they each have?
Charley: _____
Harriet _____

2. Sam G and Xander counted some of their Lego pieces. All together there were 445. Sam G had 33 more than Xander.   How many did they each have?
Sam G: _____
Xander _____

3.   Lucy and Kasia ran a total of 1,080 metres doing the Daily Mile. Lucy ran a further 64 metres that Kasia.   How many metres did they each run?

Lucy: _____

Kasia: _____

Challenge: Can you make up your own word problem using a bar model like the ones above? Write the problem and draw a bar model showing how you solved it. Make sure the two answers add up to the total you started with.
