

# Science is good at

## Broadbent Fold when...

it involves using quality resources

learning is relevant and has natural links to other subjects or the wider community/world

it is outdoors

teachers have a good subject knowledge that can support children's learning

you find out something new and interesting

teachers and children are engaged, excited and enthusiastic

technology is used

investigations are practical and fun and they make children curious to find out more or to make things better

you get to make things to fully understand an idea

you get to create a project at home with your family
